 Pet Friendly Plants

*More plants will be added next winter as we have thousands of plants!

| Common Name | Scientific Name | Description | Care Instructions |
|--|-------------------------------|--|---|
| Chinese Evergreen | Aglaonema | Sword like leaves grow upright in clusters with striking variegation. | Low light, Moderately moist soil, Average home temp. |
| Black Pagoda Lipstick | Aeschynanthus Longicawlis | Has shiny, mottled leaves with purple undersides and golden tubular flowers | Medium to bright indirect light. Well-draining, chunky soil. Water when completely dry. |
| Lipstick Plant | Aeschynanthus Radicans | Has long, red, tubular flowers in dense terminal clusters. Its leaves are dark green, elliptical, fleshy and smooth-edged. | Medium to bright indirect light. Well-draining, chunky soil. Water when completely dry. |
| Joseph's Coat | Alternanthera | Multi colored foliage | Bright direct light, moist soil. |
| Flamingo Flower | Anthurium | Dark green , glossy leaves with bright red heart shaped "blooms." | Indirect light. Moderately moist soil. Warm home temp. |
| Umbrella Tree, Variegated Schefflera | Brassaia Arboricola Veriegata | Features long, shiny, oval green leaves that droop gracefully from a central stalk, resembling an umbrella. | Medium light. Well draining soil and average watering. Aver. Moderate home temp 55-70°F (13-21°C) |
| Calathea (Peacock Plant/ Assorted Varieties) | Calathea | Showy, decorative leaves. Some species have significant flowers. | Medium light. Allow soil to dry between watering. Warm home temp 70-75°F (21-24°C) |
| Night Blooming Jasmine | Cestrum Nocturnum | Glossy green leaves and tiny white flowers | Bright light, moderately moist soil |
| Variegated Spider Plant | Chlorophytum | Fast-growing, easy-care houseplants. The long, narrow leaves are variegated white and green | Medium light 60-75°F Allow soil to dry between watering. |
| Bonnie Airplane (Spider Plant) | Chlorophytum Comosum | Swirls of curled foliage, perfect for hanging baskets. Great in the garden too. | Medium light. Moderately moist soil. Avg. moderate home temp 55-70°F (13-21°C) |
| Croton | Codiaeum Variegatum | Thick, oval leaves with bright variegation featuring colors from deep purple to bright yellow. | Bright direct light, evenly moist soil. Warm home temp. |
| Mexican Heather | Cuphea hyssopifolia | Hardy, drought-tolerant shrub that grows bright green foliage and small white, lavender or purple flowers that attract hummingbirds and other pollinators. | Sunny or Part sun with well-drained soil. Water when top is dry. |
| Umbrella Plant | Cyperus Alternifolius | Glasslike leaves on tips of tall stalks give plant an umbrella appearance. | Medium light. Very moist soil. Aver. Moderate home temp 55-70°F (13-21°C) |
| Trailing Carnation | Dianthus Caryophyllus | Deep red trailing carnation | Fragrant, lots of water required when hot |
| Dumb Cane | Dieffenbachia | Has large decorative leaves are variegated with cream, white or yellow markings | Medium light. Moderately dry soil. Aver. Warm home temp 62-80°F (16-27°C) |

| | | | |
|-----------------------------|--------------------------------|--|--|
| Pothos, Golden | Epipremnum | Attractive large leaves. Easy to grow. Excellent in hanging baskets. | Low light. Moderately moist soil, warm home temp 62-80°F (16-27°C) |
| Pothos 'N' Joy | Epipremnum Aureum 'N' Joy | Variegated leaves and vining growth | Bright indirect light. Let dry between watering |
| Silver Satin Pothos | Scindapsus pictus | tear or heart-shaped leaves, the Silver Satin Pothos puts out colorful and satin-like foliage | Bright indirect light, let dry between watering |
| Marble Queen Pothos | Epipremnum Aureum | Characterised by the cream, marble-patterned variegation on her leaves | bright, indirect light. Allow the top 2 to 3 inches of soil to dry out between waterings |
| Neon Pothos | Epipremnum aureum | attractive heart-shaped leaves remain chartreuse in color with showy yellow variegation throughout the year. | bright, indirect light. Allow the top 2 to 3 inches of soil to dry out between waterings |
| Velvet Leaf Philodendron | Philodendron Micans | big, velvety-soft, heart-shaped leaves. | Medium to bright indirect light. Soil, evenly moist. Avoid soggy soil |
| Variegated Ficus Benjamina | Ficus Benjamina 'Variegata' | Green and cream-colored leaves | Moderate light, well drained soil |
| Rubber Plant | Ficus Elastica | Has glossy, leathery, large leaves. The leaves are oblong to oval, 8 to 12 inches long and in various colors of dark green, deep maroon or marked with yellow, cream, pink or white. | Indirect bright light, dry soil. |
| Fiddle Leaf Fig | Ficus Lyrata | Large fiddle shaped leaves | Bright indirect light., moist soil. |
| Golden Gate Ficus | Ficus Microcarpa 'Golden Gate' | Shiny dark green leaves. Commonly used in bonsai | Bright indirect light, likes high humidity |
| Creeping Fig | Ficus Pumila | This small-leaved creeper can grow up supports with its clinging roots. | Medium Light. Moderately moist soil. Aver. Warm home temp 62-80°F (16-27°C) |
| String of Frogs | Ficus Pumila 'Quercifolia' | Miniture creeping vine with oak shaped leaves resembling frogs | low light, .5-1" tall, moist soil, high humidity |
| Variegated Creeping Fig | Ficus Pumila 'Variegata' | Heart-shaped, thumbnail-sized leaves with broad white margins on a creeping to climbing tropical vine with wiry stems. | Filtered light, evenly moist soil |
| Bridal Veil | Gibasis Geniculata | Tiny olive leaves and white flowers. More profuse in higher light. | Medium light. Moderate home temp 55-70°F (13-21°C) |
| Purple Passion | Gynura Sarmentosa | Creeping habit makes this plant good for hanging baskets | Bright light. Moderately moist soil. Warm home temp 70-75°F (21-24°C) |
| Marengo (Gloire De Marengo) | Hedera Canariensis | Attractive variegated foliage. Excellent for hanging baskets or as a topiary | Bright light. Moderately moist soil. Average home temp 60-70°F (16-21°C) |
| Gold Dust Ivy | Hedera Helix | small-leaved, with dark green leaves deeply marbled and speckled in gold. | Bright-Full sun. Keep evenly moist but not constantly wet. Likes daily misting and fresh air. |
| Needlepoint Ivy | Hedera Helix | Very versatile vine featuring dark green leaves with showy white veins. | Sun/Shade. Moist, fertile soil. Cut back each spring. |
| Variegated Ivy | Hedera | White-variegated green leaves | Bright-Full sun. Likes daily misting and fresh air. Allow soil to moderately dry out between watering. |

| | | | |
|-------------------------|---|---|--|
| English Ivy | Hedera Helix | Fast-growing ivy with distinctive leaves. | Bright light. Moderately moist soil. Cool/mod. Home temp 60-70°F (15-21°C) |
| Manda Crested Ivy | Hedera Helix 'Manda Crested' | Dark green leaves and wavy edges | Low light. Evenly moist soil. |
| Baby's Tears | Helxine Soleirolia | This longtime favorite plant features fast-growing, dense, tiny leaves | Medium light. Moderately moist soil. Avg. warm home temp 62-80°F (17-27°C) |
| Waffle Plant | Hemigraphis Alternata (H. Colorata) | Silvery-purple leaves with red undersides. Low-growing | Low light. Moderately moist soil, warm home temp 70-75°F (21-24°C) |
| Polka Dot Plant | Hypoestes | Rose-splashed leaves on well-branched plants. Use in borders, containers. | Plant in sun or part sun 8" (20 cm) apart. Grows 8-10" (20-25 cm) tall |
| Red Heart | Iresine | Bright foliage ideal for gardens, and patio or window containers. Heat tolerant | Plant in part sun or shade 18-24" (46-61 cm) apart. Grows to 20" (51 cm) tall |
| Variegated Heart | Iresine | Striking foliage ideal for gardens, patio or window containers. Heat tolerant | Plant in part sun or shade 18-24" (46-61 cm) apart. Grows to 20" (51 cm) tall |
| Jasmine White | Jasminum Polyanthum | Wonderful in baskets, pots or anywhere the lovely fragrance can be enjoyed. Grown to 20' tall | Plant in sun or part sun 4-6' apart. Grows to 20' tall |
| Jasmine Arabian | Jasminum Sambac | Fragrant flowers in large clusters. Good vine for containers, indoors or out | Full sun outdoors or indoors in bright light. Mod-cool home temp in winter |
| Shrimp Plant | Justica Brandegeana 'Variegata' | Drooping, rusty-red flower spikes, evergreen leaves | Bright light. Moderately dry soil. Mod/home temp 65-75-0°F (18-21°C) |
| Variegated Shrimp Plant | Justica Brandegeana 'Variegata' | Upright to arced spikes composed of large showy maroon bracts from which the separate maroonish-red and white tube-shaped flowers arise in spring and summer. | Bright light. Moderately moist |
| White brazilian Plume | Justicia Carnea White | Large fountain-like trail of bright, solid white long, slim petals arise from the terminal ends of the branches and curving outwards. | Medium Light |
| Blue Star Creeper | Laurentia (Isotoma) | PERENNIAL Mosslike plant has light blue flowers. Use for ground cover. | Plant in full sun 12" (30 cm) apart. Grow to 6" (15 cm) tall. |
| Blue Baby Tears | Lindneria Grandiflora | Small light green leaves w/ purple & white flowers | Sun or shade, water frequently |
| Candy Corn | Manettia | Graceful, twining vine for planters, trellis or topiaries. Attracts butterflies | Plant in part sun. grows 6-12' (1.8-3.7 m) tall. Frost tender |
| Prayer Plant | Maranta Leuconeura | Has variegated ovate leaves with entire margins that fold at night to resemble praying hands. The undersides of the leaves are gray-green to purple-green. | Bright but indirect light, moist soil. |
| Thai Constellation | Monstera deliciosa 'Thai Constellation' | Cream colored splashed of variegation on dark green leaves. The leaves also with produce large holes as it matures. | Bright, Indirect light. Allow the top 2 to 3 inches of soil to dry out between waterings. Provide support as the plant matures |
| Swiss Cheese Plant | Monstera Adansonii | Refined form of the dramatic split-leaf philodendron. Will trail or climb. | Medium Light. Moderately moist soil. Aver. warm home temp 65-80°F (18-27°C) |

| | | | |
|----------------------|--------------------------------|--|--|
| Goldfish Plant | Nematanthus | Unique , long-lasting flowers add a bright touch of color to any room | Bright indirect light. Moderately moist soil. Warm home temp. 65-75°F (18-24°C) |
| Golden Shrimp Plant | Pachystachys Lutea | Striking flowers against deep green leaves. Trim to keep plants bushy and full | Bright Light. Moderately moist soil. Mod/warm home temp. 65-75°F (18-24°C) |
| Luna Red Peperomia | Peperomia Caperata | Has rounded, heart-shaped leaves and unusual texture. The leaves are purple-red in color, measuring around 3-4cm long, with prominent, sunken veins. | Bright diffused light, let dry between watering |
| Ripple Peperomia | Peperomia Caperata | Its leaves can be textured or smooth in red, green, gray, or purple; variegated, marbled, or solid; large, heart-shaped, or tiny. | Medium to bright light. Dry between watering. |
| Watermelon Peperomia | Peperomia Caperata | Leaves resemble the rind of a watermelon. | Bright diffused light, let dry between watering |
| Ginny Peperomia | Peperomia Clusiifolia | Has variegated leaves that are outline with a splash of cream and pinks. | Medium Light. Moderately dry soil. Aver. Warm home temp 62-80°F (16-27°C) |
| Marble Peperomia | Peperomia Obtusifolia 'Marble' | Foliage is dark green and decorated with white or creamy yellow markings which look like marbling | Medium to bright light. Dry between watering. |
| Cupid Peperomia | Peperomia Scandens | Has heart shaped leaves and is the variegated form of Peperomia scandens 'Green'. | 5 hours of indirect sunlight, daily, and water the soil when it becomes dry |
| Felted Peperomia | Peperomia Incana | Silvery green houseplant with heart-shaped leaves that is covered in white hairs creating a soft, fuzzy texture. | Bright diffused light, evenly moist |
| Philodendron Vine | Philodendron | Easy-care plants with large, glossy leaves in many forms. Use in containers. | Medium light. Moderately moist soil. Aver. warm home temp 62-80°F (16-27°C) |
| Aluminum Plant | Pilea Cadierei | Fast-growing plant with green leaves quilted in silver | Medium Light. Moderately moist soil. Aver. Warm home temp 62-80°F (16-27°C) |
| Creeping Jenny | Pilea Depressa | This freely branching tiny-leaved creeper roots wherever a node touches the ground. Great in hanging baskets or dish gardens. | Prefers medium light. Moderately moist soil. Moderate to warm home temperature 62-80°F (17-27°C) Generally hard to 56°F (13°C) |
| Artillery Fern | Pilea Microphylla | Very tiny leaves cover multi-branched stems. Pollen "Shoots" when ripe | Moderately moist soil. Avg. warm house temp 62-80°F (17-27°C) |
| Creeping Charlie | Pilea Nummularifolia | Green leaves on trailing stems | Medium Light. Moderately moist soil. Aver. Warm home temp 62-80°F (16-27°C) |
| Chinese Money Plant | Pilea Peperomioides | Flat, round leaves. Shiny, leathery, thick, dark green pancakes | Medium Light. Moderately moist soil. Aver. Warm home temp 62-80°F (16-27°C) |
| Upright Artillery | Pilea Serpyllacea | Filtered Light, Keep moist but not soggy | Bright/filters light inside, Shade/Part Shade outside, Well drained soil but moist, 70-75°F |
| Friendship Plant | Pilea Spruceana | Dark green leaves with dark bronze undertones and often light green edges | Filtered light. Keep moist but not soggy |
| Swedish Ivy | Plectranthus Australis | Fast-growing vine with round, scalloped leaves. | Medium light. Moderately moist soil. Aver. home temp 50-80°F (13-27°C) |

| | | | |
|--|--|--|---|
| Variegated Swedish Ivy | Plectranthus Australis 'Veriegatus' | Excellent hanging plant with attractively marked leaves. Roots easily in water. | Medium light. Moderately moist soil. Aver. home temp 55-80°F (13-27°C) |
| Giant Iboza | Plectranthus Coleoides "Marginatus" tomentosus | Upright plant with square brown stems and round, scalloped leaves | |
| Tricolor Iboza | Plectranthus Coleoides "Tricolor" | Shub like, velvety leaves and showy white flowers | |
| Trailing Iboza | Plectranthus Madagascariensis | Musk-scented leaves and creamy-white winter blossom | Medium light |
| Purple Leaved Swedish Ivy | Plectranthus Purpuratus | Fast-growing plant has dark green leaves with purplish underside | Indirect light, moderately moist soil. Warm home temp 70-75°F (21-24°C) |
| Moses-In-The-Cradle | Rhoeo Spathacea | Sword-shaped leaves from a boat shape around abby white flowers | Medium light. Moderately moist soil. Average home temperature 55-70°F (13-21°C) |
| Irish Moss | Sagina Subulata | Lush green foliage forms a dense, mosslike carpet. Ideal for planting between paving stones, on rock walls, at garden's or water's edge, or as a small-scale ground cover. | Performs best in light, moist, well-drained soil. |
| Strawberry Begonia | Saxifraga Stolonifera | Small star-shaped flowers in late summer. Has runners with small plants like strawberry plants. | Medium Light. Allow soil to dry slightly then water. Feed every 3 months. |
| Variegated Wax Ivy | Senecio Macroglossus 'Variegatum' | Fast-growing vine has waxy leaves edged in cream | Indirect light. Moderately moist soil. Warm home temp 70-75°F (21-24°C) |
| Purple Heart | Setcreasea | Trailing vine has great foliage color for contrast or accent in gardens or pots. | Plant in sun or part sun 16° (41 cm) apart. Grows 8" (20cm) tall |
| Violet Nodding Bells | Streptocarpella | Daily blooms on trailing plants add interest to indoor or outdoor containers | plant in indirect light indoors, shaded areas outdoors. Moderately moist soil |
| Persian Shield | Strobilanthes Dyerianus | TENDER PERENNIAL Stunning foliage accent for the garden or containers. May be wintered indoors. | Plant in full or part sun, 3' (.9 m) apart. Grows 3-4' (.91-1.2 m) tall |
| Arrowhead Plant | Syngonium | Grown for its interesting leaves and semi-upright to trailing habit | Medium Light. Moderately moist soil. Aver. Warm home temp 62-80°F (16-27°C) |
| Piggy Back Plant (Mother of Thousands) | Tolmiea Menziesii | Fuzzy light green leaves that form new plants at the base of the mature leaves | Med-Bright indirect light. Evenly moist soil. |
| Pink Lady | Tradescantia Callisia Repens | Plants range from green striped colors to pigments of pink and cream | Bright filtered light. Moderate watering |
| Purple Wondering "Dude" | Zebrina Pendula | Trailing plant has green-purple striped foliage with silver band. | Prefers medium light. Moderately moist soil. Aver. warm home temp 62-80°F (16-27°C) |
| Tricolor Wandering "Dude" | Zebrina Pendula 'Tricolor' | Rapid trailing stems with attractively marked leaves. | Mild liquid fertilizer. Keep soil moist but not wet. |
| Mango Illusion | Syngonium podophyllum | very wide puckered heart shaped leaves that are a rich pinkish bronze with shimmering peach tones and pale violet veins | moderate light, evenly moist soil |
| Nerve Plant/Mosaic Plant | Fittonia albivenus | lush green leaves patterned with intricate white to deep pink veins resembling nerves | bright indirect light, moist soil |

| | | | |
|---------------------------|-----------------------------------|--|--|
| Funky Frog Peperomia | Peperomia angulata | leathery, dark green leaves with bright lime-green veins | bright diffused light, let dry between watering |
| Lettuce Leaf | Begonia x erythrophylla 'Bunchii' | The large leaf is a light bronze green with light green veins and mottling in the blade. | low light, well drained soil |
| Angelwing | Begonia | upright growing plants with thick canes or stems, often brilliant foliage and heavy clusters of dangling flowers in cherry red, orange, salmon, pink and white. | Filtered light, evenly moist soil |
| Moon Valley | Pilea involucrata | striking, tropical houseplant featuring ovular, light green leaves, with bronzy undertones, growing in an attractive mound | bright indirect light, allow soil to dry between waterings |
| Begonia Torch | Begonia | is a Angel Wing with bright red flower clusters that bloom at nearly every leaf node | low light, well drained soil |
| Red Dragon Wing | Begonia | compact F1 hybrid begonia that features angelwing-like, shiny green leaves and large drooping scarlet flowers. | low light, well drained soil |
| Rex 'Firework' Begonia | Begonia | casts its ruby-red veins outward over its silvery leaves, finding completion at its beautiful plum-toned edges | Filtered light, evenly moist soil |
| Pink Princess | Philodendron erubescens | Glossy dark maroon leaves splashed with light pink. Variegation is determined by the amount of light given. Will need support as the plant matures. | Bright, indirect light. Moderately moist soil, will tolerate light watering |
| Deja Vu Philodendron | Philodendron Hybrid | Deeply serrated jungle green leaves that can change shape as the plant matures. Compact, upright growth habit. | Medium light, prefers evenly moist soil, but can be drought tolerant in high humidity |
| Painted Lady | Philodendron erubescens | Long, heart shaped leaves on pink stems emerge yellow and mature to a bright green with darker specks of green variegation. Climbing habit will require support. | Bright, indirect light. Modertely moist soil, will tolerate light watering |
| Jose Buono Philodendron | Philodendron imbe var. Jose Buono | Large, heart shaped leaves are deep green in color with yellow and cream variegation that will differ with each leaf. Will need support | Bright, Indirect light. Modertley moist soil. Can tolerate light watering. |
| White Princess | Philodendron erubescens | Dark green leaves with striking white variegation that will appear more when given proper light. Climbing habit will require support | Bright, indirect light. Modertly moist soil. Can tolerate light watering. Avoid direct sun light which can burn the variegated section of leaves |
| Silver Sword Philodendron | Philodendron hastatum | Long, glossy sword shaped leaves appear silver-blue-green in color. Climbing, compact growth habit will require support. | Bright, Indirect light. Modertley moist soil. Can tolerate light watering. |
| Brasil Philodendron | Philodendron hedraceum | Glossy, dark green, heart shaped leaves with deep yellow striped variegation. Trailing or climbing habit makes it excellent for a trellis or a hanging basket | Bright, Indirect light. Modertley moist soil. Can tolerate light watering. |
| Cebu Blue Pothos | Epipremnum pinnatum | Small, sword shaped leaves appear silver- blue. Trailing habit. | Bright, Indirect light. Modertley moist soil. Can tolerate light watering. |

| | | | |
|----------------------------------|-------------------------------------|--|--|
| Exotica "Pothos" / Silver Cloud | Scindapsus pictus | Heart shaped leaves are dark green with splashes of shimmery silver. Trailing habit. | Bright, Indirect light. Modertley moist soil. Can tolerate light watering. |
| Rex Begonia Vine / Tapestry Vine | Cissus Discolor | A striking, colorful vine with heart shaped leaves that have intricate patterns of silver, maroon, and and green with deep purple under sides and maroon leaf stems. | Medium light. HIGH humidity. Allow the firstinch of soil to dry between watering. Vigorous climber. Average home temp. |
| Trailing Watermelon Begonia | Pellionia repens | Oblong, wavy edged leaves that are grey-green with dark green edges that resemble a watermelon rind. Low growing, with stems that root were they touch soil. | High humidity, moderately moist soil, bight indirect light, average home temp |
| Mexican Breadfruit /Monstera | Monstera deliciosa | Medium to large sized split leaves are a beautiful jungle green. Climbing habit will require support. | Medium light, prefers evenly moist soil, but can be drought tolerant in high humidity. Average home temp |
| Peace Lily | Spathiphyllum | Dark dreen leaves, bright whit Calla-like flowers. Easy to flower. | Low light, evenly moist soil, average home temp |
| Bolivian 'Dude' / Turtle Vine | Callisia Repens | Trailing plant has small dark green leaves with purple under sides. | Moderatly moist soil, Indirect light, Avg. home temp |
| Pink Panther/ Pink Turtle Vine | Callisia Repens 'Pink Panther' | Trailing plant has small leaves striped with shades of green and violet-pink | Medium light, moderately moist soil. Avg home temp |
| Pistachio 'Dude' | Tradescantia 'pistachio' | Trailing plant has heat shaped leaves that are striped with light green and cream colors | Medium light, moderately moist soil. Avg home temp |
| Nanouk | Tradescantia abiflora 'Nanouk' | Tailing plant has violet and green variegated leaves on thick, low growing stems. | Bright, indirect light. Allow top inch of soil to dry between watering. Avg home temp |
| Rosso Peperomia | Peperomia caperata | Compact plant with small, thick grooved leaves that are green on top and red on the bottom | Bright, indirect light. Let top inch dry between watering. Avg home temp. |
| Hope Peperomia | Peperomia tetraphylla | Small, round green leaves are succulent - like. Tailing habit. | Bright, indirect light. Let top inch dry between watering. Avg home temp. |
| String of Turtles | Peperomia Prostrata | Small, tailing succulent - like vine with round speckled leaves that resemble turtle shells | Medium light, but will tolerate lower light conditions. Moderately dry soil. Avg home temp |
| Chelsea Hoya | Hoya carnosa 'chelsea' | Thick, waxy heart -shaped leaves are slightly puckered and dark green. | Bright light, let soil dry between waterings. Avg home temp. Prefers higher humidity. Mist occasionally to help with this. |
| Lisa Hoya | Hoya australis ssp. tenuipes 'lisa' | Thick,oval shaped leaves are variegated with splashes of green, yellow, cream and even pink. Trailing habit | Bright light, let soil dry between waterings. Avg home temp. Prefers higher humidity. Mist occasionally to help with this. |
| Memoria Hoya | Hoya memoria gracilis | Small, almond shaped leaves are waxy and dark green with splashes of silver. Trailing habit | Bright light, let soil dry between waterings. Avg home temp. Prefers higher humidity. Mist occasionally to help with this. |
| Wax Vine / Hoya | Hoya australis | Thick, waxy, dark green leaves. Trailing habit. Fragrant white, star shaped flowers | Bright light, let soil dry between waterings. Avg home temp. Prefers higher humidity. Mist occasionally to help with this. |
| Wayetti / Banana Hoya | Hoya wayetti | Long, lance shaped leaves are dark green with lighter green, cream and sometimes even pink margins. | Bright light, let soil dry between waterings. Avg home temp. |

| | | | |
|-------------------------------------|----------------------------------|--|---|
| | | Leaves are slightly curved. Trailing habit | Prefers higher humidity. Mist occasionally to help with this. |
| Hindu Rope Hoya | Hoya carnos compacta | A very distinctive Hoya, with green, tightly curled, clustered leaves. Trailing habit | Bright light, let soil dry between waterings. Avg home temp. Prefers higher humidity. Mist occasionally to help with this. |
| Souviner de Bonne / Flowering Maple | Abutilon 'Souvenir de Bonne' | Small tree great for Bonsai, with green Maple shaped leaves that have cream colored margins. Blooms are bell shaped and salmon-pink. | Very bright, indirect light. Can tolerate morning sun. Moderately moist soil, water less in winter, Avg home temp. Well draining, rich soil |
| Norfolk Island Pine | Araucaria Heterophylla | Very slow growin, miniture evergreen | Indirect light, moderately moist soil. Moderate home temp (65-70 F) |
| Pale Puma | Tradescintia pallida 'Pale puma' | Wide, oval shaped leaves grow closley together on thick, trailing stems. The plant will change from almost a yellow-green in lower light conditions, or become dark purple in bright light | Bright, indirect light. Well draining soil. Allow soil to dry between watering. |
| Sensitive Plant / Shy Plant | Mimosa Pudica | This plant has the ability to close its fern-like leaves when touched. Mature plants will bloom pinkish-purple puffs in the summer | Medium light. Moderately moist soil. Warm home. Prefers higher humidity. Slow grower. |
| Ponytail Palm | Beaucarnea Recurvata | Slender, graceful leaves grow from a bulbus "trunk." This trunk actually will retain water and is a great indicator of the plant's health. | Bright light, let soil dry between waterings. Avg home temp. |

Annuals in Packs

| Name | Description | Varieties/Colors |
|-----------------------------|---|-----------------------------------|
| Ageratum | | |
| Aloha Blue | Superb garden performance 6-8" | Blue |
| Alyssum | | |
| Clear Crystal Purple Shades | Large Flowers, 6-10" tall | Purple |
| Snow Crystal | Large Flowers, 6-10" tall | White |
| Wonderland White | Compact, uniform growth habit | White |
| Begonia | | |
| Super Olympia Series | Compact, well-branched plants with green foliage, 6-8", Sun/part shade | Mix, Rose, Red, White |
| Cocktail Series | Compact, well-branched plants with bronze foliage, 7-9", Sun/part shade | Gin, Vodka, Whiskey |
| Celosia | | |
| Cockscomb Type | | |
| Fire Chief | Great cut or dried 36-40" | Red |
| Prestige Scarlet | Unique spreading habit. 18-20" | Bronze leaf, bright scarlet bloom |
| Plume Type | | |
| Castle Mix | Well branched, 12-16" tall | Mix |
| Fresh Look Red | Rich green foliage covered with feathery flowers. 12-14" | Cherry Red |
| Fresh Look Gold | Rich green foliage covered with feathery flowers. 12-14" | Deep Golden Yellow |

| | | |
|--------------------------|--|---|
| New Look | Bronze foliage 12-14" | Deep Red |
| Smart Look Red | Dark bronze foliage, very well branched 15" | Neon Red |
| Cleome | | |
| Queen Series | 3-4' Heat tolerant, bold landscape plant | Cherry & Purple |
| Coleus | | |
| Fairway Mix | Medium-Large colorful foliage, 10-12" tall. Shade | Mixed |
| Cosmos | | |
| Sonata Mix | 22-24" free flowering, single 4" daisy-like blooms | Mix (Lilac, Red shades, Pink, & White) |
| Dahlia | | |
| Harlequin Mix | Semi-double, 12-14" Bi-colored Mix | Rose, Violet, Yellow, Orange, Scarlet, White |
| | | |
| | | |
| Dianthus | | |
| Super Parfait Raspberry | 8-10" tall, large flowers | Raspberry blush with deep crimson eye |
| Super Parfait Strawberry | 8-10" tall, large flowers | Blush pink with rich scarlet eye |
| Telstar Mix | 8-10" often Perennial, continuous bloomer | Mix of Solid and Picotee Flowers |
| Dusty Miller | | |
| Silver Dust | Most Popular 10-12" Broad Leaves | Small Yellow Blooms |
| Flowering Cabbage | | |
| Osaka Mix | Wavy-edged leaves on compact heads 8-10" | Mix (Pink, Red, White) |
| Flowering Kale | | |
| Nagoya Mix | Heavily fringed leaves on a uniform plant. 4-6" | Mix (Red, Rose, & White) |
| Gazania | | |
| Big Kiss Yellow Flame | Extra-large blooms 8-10" tall | Yellow/Red |
| Big Kiss Mix | Extra-large blooms on compact plants, 8-10", Sun | Mixed |

| Helichrysum | | |
| Bright Bikini Mix | Dwarf strawflower with brightly colored blend of 2" double flowers, 12", Sun | Mix |
| Hypoestes | | |
| Splash series | Polka-dot foliage 8-10" tall | Pink, Rose, Red, White |
| Impatiens | | |
| Imara XDR Mix | Downy mildew resistance 10-12" tall | Mix |
| Xtreme Series | Compact habit with high quality flowers, 8-10" | Lavender, Mix, Red, Bright Rose Salmon, Violet, White |
| Lisianthus | | |
| Echo Series | Strong stems, dbl. flowers 36-48" tall | Pink picotee |
| Lobelia | | |
| Riviera Series | Early flowering, bushy plant habit | Assorted varieties |
| Marigold | | |
| African (Tall) | | |
| Cracker Jack Mix | Heirloom variety, 3-4" flowers, 36" tall. | Mix |
| Inca II Series | Fully double blooms on compact plants. 12-14" tall | Yellow, Orange |
| Dwarf | | |
| Bonanza Bee | French Crested variety, 10-12" | Mahogany with Yellow edge |
| Bonanza Harmony | French Crested variety, 10-12" | Red / Orange |
| Bonanza Yellow | French Crested variety, 3" flowers, 10-12" tall | Yellow |
| Durango Bee | French anemone type, large flowers, 12" tall | Mahogany/ Yellow |

| | | |
|--------------------------------|--|--|
| Durango Outback Mix | Large Flowers- French anemone type 8-15" tall | Mix of Solid Colors and Bi colors |
| Durango Yellow | French anemone type, large flowers, 12" tall | Primrose Yellow |
| Safari Bolero | French Anemone type, 2-2 ½" blooms 10" tall | Yellow with Red splashes |
| Safari Yellow | Early flowering, large dbl. bloom, 8-10" tall | Yellow |
| Safari Yellow Fire | 2 ½" blooms French Anemone type, 8-10" tall | Yellow/Red |
| Nicotiana | | |
| Perfume Series | Highly scented blooms 20" tall | Red |
| Pansy | | |
| Colossus Blotched Mix | Compact plant with large 3.5-4" blooms, 4-5" tall | Mix |
| Delta Premium | Early bloom heat tolerant. 3- 3 ½" blooms 4-5" tall | Mix |
| Blotched Mix | | |
| Delta Premium Neon | Early bloom heat tolerant. 3-3 ½ "blooms 4-5" tall | Deep Violet w/ Neon Blue Face |
| Violet | | |
| Delta Premium Yellow w/ Blotch | Early bloom heat tolerant. 3 – 3 ½" blooms 4-5" tall | Bright Yellow with Dark Blotch |
| Delta White w/ Blotch | Early bloom, heat tolerant, 3 –3 ½" blooms 4-5" tall | White w/ Dark Purple Blotch |
| Petunia | | |
| Assorted Varieties | Varies from week to week, check back with us or request a specific color or variety | Assorted Varieties |
| Portulaca | | |
| Sundial Series | Large double flowers stay open longer than other varieties. 4-5" tall | Mix |
| Salvia | | |
| Mojave Series | Heat-tolerant plants with deep green foliage, 10-12", Sun | Red |
| Victoria Blue | Drought and heat-resistant 16-18" | Deep Blue |
| Vista Series | Well-branched with deep green foliage, 10-12", Sun | Assorted Colors |
| Snapdragon | | |
| Rocket Mix | Long flower spikes, vigorous growth, heat resistant. 30"-40" | Mix of Bronze, Cherry, Gold, Lemon, and Orchid |
| Snapshot Series | Bushy, low-growing with full flower spikes, 6-10", Sun | Assorted Colors |
| Snaptastic Mix | Strong stems with good lateral branching, 14-16", Sun | Mix |
| Verbena | | |
| Obsession | Continuous blooms, compact and branching habit 6-8" tall | Assorted Colors |
| Vinca | | |
| Assorted Varieties | Heat loving, sun loving, and drought tolerant, 10-14". | Assorted Colors |
| Viola | | |
| Penny Denim Jump-Up | Early flowering compact plants 5-7" | Deep Blue wings with Light Blue face |
| Sorbet Mix X P | Excellent garden performance, good temperature tolerance, compact growth habit. 5-7" | Mix |
| Zinnia | | |
| Dreamland | 3 ¼" flowers on compact 9-12" plants | Mix |
| Profusion Series | Hybrid variety with good disease resistance and vigor. 8-10" | Double Mix |
| State Fair Mix | Tall Variety, giant blooms, up to 6" in diameter. Up to 3' height | Mix |
| Zinnita Mix | Open pollinated variety. Extra Dwarf, vigorous growth. 6-8" | Mix |

| <u>Herbs That Attract Butterflies</u> | <u>Cooking with Herbs</u> |
|---|--|
| <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  <p>Catmint Dill Lavender Mint</p> </div> <div style="text-align: center;">  <p>Oregano Parsley Sweet Marjoram</p> </div> </div> | <p>If you're cutting back on your dietary salt, try using herbs as flavorings. Add most herbs about thirty minutes before the end of cooking time. Simmer them slowly with the food to release the flavor and retain the volatile oils.</p> <ul style="list-style-type: none"> Dried herbs are more potent than fresh – one teaspoon dried equals one tablespoon fresh. Experiment with herbs! Try them in old recipes, taste new ones, combine herbs. Use moderation. Some herbs may be overpowering if too much is used. Familiarize yourself with the strongly flavored ones – sage, rosemary, thyme, and oregano. |

Did you know? Dill is an important host plant for caterpillars of swallowtail butterflies. It's also a must for pickling.

Annual & Perennial Herbs

Zones Listed, Most of Indiana is Zone 5 - (A): Annual, (P): Perennial, (TP): Tender Perennial (light winters only).
 Availability will change week to week. If you need an herb we don't have, we may be able to get it for you.

| Annual & Perennial Herbs | |
|--------------------------|--|
| Basil | |
| Genovese | Classic large leaf type, great for pesto (A) |
| Purple Ruffles | 18" Unique purple ruffled highly fragrant leaves. (A) |
| Sweet Dani | All American Selections Winner, 70-75% more essential oils than common lemon basil. Enhanced culinary value. (A) |
| Sweet Italian | Leaves used for flavoring tomato dishes. (A) |
| Italian Large Leaf | |
| Thai Siam Queen | Spicy anise-licorice aroma & flavor (A) |
| Catnip | Favorite of cat lovers; also promotes good sleep (tea) and is used as a cold/fever remedy. (P) Zones 5-9 |
| Chamomile | Apple scented flowers for soothing tea, potpourris and dried flower arrangements (A) |
| Chervil | Chervil has a flavor similar to parsley with a hint of anise. |
| Chives | Onion chives, blooms can be used to add color and flavor to salads. (P) Zones 3-9 |
| Cilantro | Mexican or Chinese Parsley; essential for salsa & Chinese dishes. Use ground seeds to flavor pastries, sausages, curry powder, pickling. (A) |
| Curry Plant | Curry-scented foliage. Used to enhance fruit flavors in confections and perfumes. (TP) Zones 8-9 |
| Dill Fernleaf | Dwarf, 18" tall; provides extended cutting season; slow to seed. (A) |
| Eucalyptus | Source of essential oils used in perfumery & medicine. (TP) Zones 9-10 |
| Fennel | |
| Bronze | Bronze-red lacy foliage used in soups, salads, stews and oily fish. (P) Zones 5-11 |
| Sweet | Produces a bulbous base of anise flavor and crisp texture. (P) Zones 5-10 |
| Feverfew | Used to ease occurrences and severity of migraine headaches. Also, as a relief from arthritis. (P) Zones 5-9 |
| French Tarragon | Used to flavor fish, cheese, eggs, almost any vegetable. Essential in Béarnaise Sauce and Eggs Benedict. (P) Zones 4-7 |
| Hyssop | Oil used in perfumes; chopped leaves used on game meats & in salads, soups, & stews. Aids indigestion. (P) Zones 3-9 |
| Horehound | Used for weak stomach, lack of appetite, and persistent bronchitis |
| Lavender | |
| Dentata | It can be used as an insect repellent for mosquitoes, midges, and flies (A) |
| Hidcote | Compact silver-grey foliage (P) Zones 4-8 |
| Munstead | Deep lavender color. Use in borders and sachets. (P) Zones 4-9 |
| Lemon Balm | Lemon scented foliage is used in teas, salads, and soups. (P) Zone 5-9 |
| Lemon Leaf | Velvety leaves with fruity lemon scents. Used in desserts and drinks |
| Lemongrass | Lemon-scented grass used to flavor fish, soups, curries, sauces, and tea (TP) Zones 11+ |
| Lemon Verbena | Strongly aromatic, use as a substitute for lemon. (TP) Zones 8-10 |
| Lovage | Lovage has a flavor similar to celery, but stronger and sweeter. It has an umami-like taste and a gentle mouth-tingling effect. (TP) |

| | |
|----------------|--|
| Marjoram Sweet | Strong spicy flavor to sauces, soups, stuffing & stews (TP) Zone 9-11 |
| Menthol Plant | Strong Menthol scent (TP) Zones 11+ |
| Mint | |
| Chocolate | Striking 'Peppermint Patty' Scent (P) Zones 4-9 |
| Kentucky Col. | The best cooking mint, great for tea. (P) Zones 5-9 |
| Mojito | Used in Mojito cocktails, mild warm flavor (P) Zones 5-9 |
| Peppermint | A refreshing alternative to regular coffee and tea. (P) Zones 5-9 |
| Pineapple | Variegated leaves with a pineapple fragrance when young. (TP) Zones 6-9 |
| Greek | True oregano gathered from the mountains of Greece. Excellent flavor. (P) Zones 5-11 |
| Mushroom Plant | Tastes like mushrooms, add to salads, soups & stir fries (TP) Zones 9 |
| Oregano | |
| Greek | True oregano, excellent flavor, very hardy. (P) Zones 5-11 |
| Italian | Strong spicy flavor similar to sweet marjoram (P) Zones 6-9 |
| Parsley | |
| Triple Curled | Compact, dark green curled (A) |
| Plain Italian | Dark green, best type for flavoring. (A) |
| Patchouli | Definitive perfume of India and the orient. Sandalwood scent (TP) Zones 11+ |
| Rosemary | Evergreen leaves used for seasoning meats; blue flowers. Used throughout the Orient and India in perfumes, inks, and soaps. Reminiscent smell from the "hippie culture" of the late 60's and early 70's. (TP) Zones 8-11 |
| Sage | |
| Golden | Similar to garden sage with chartreuse – yellow foliage (TP) Zones 7-9 |
| Pineapple | Leaves, when rubbed, emit a truly pineapple fragrance. (TP) Zones 6-9 |
| Tricolor | Similar to garden sage with white and pink streaks (TP) Zones 6-9 |
| Savory Winter | Strong flavor used in beans, meats, soups and sauces (P) Zones 5-8 |
| Stevia | Sugar substitute, 100x sweeter than sugar, but no calories. Use leaf powder in place of sugar in drinks, deserts, preserves, anywhere you would normally use sugar. (TP) Zones 11+ |
| Thyme | |
| English | 6" tall. Widely used seasoning and border herb. (P) Zones 4-9 |
| Lemon | Small creeping dark green leaves with excellent lemon flavor. (P) Zones 4-9 |
| Valerian | Roots have excellent sedative action, used for nervous unrest, migraine |
| Vicks Plant | Plant with scent similar to the popular cold remedy and can serve the same purpose! |

Nymphaea Joey Tomocik (Yellow Water Lily)

Nymphaea Wanvisa (Red/White Water Lily)

Water Plants (8" Combo Pots)

3 different plants per pot

GROWING PERENNIALS

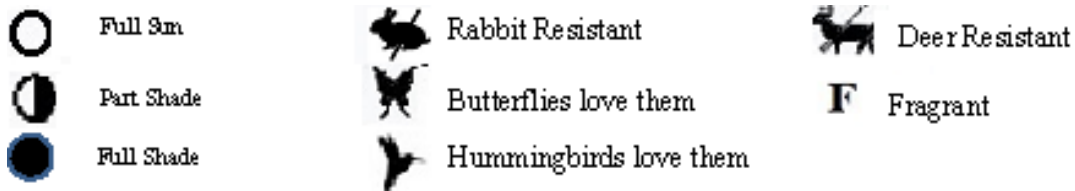

Annuals bloom often during the growing season, but perennials bloom only once or twice per season. Perennial shapes range from ground hugging and creeping like phlox to very tall like hollyhocks. Perennials can last many years while annuals usually only last one season. Perennials grow and multiply each year but can be kept in check by dividing the plant and replanting the division in another area of your garden.

Most perennials prefer soils that are well drained and high in organic matter. Many varieties that can tolerate poor soil conditions will thrive in richer soil. Trimming dead flowers and damaged parts during the growing season helps to conserve the plant's strength. This can extend the growing season of most perennials.

While perennials are still small, hand-weed or hoe lightly in-between your plants to prevent weeds from becoming established. As your perennials grow and spread, there will be fewer weeds. A mulch of bark, applied to bare soil, and spread in-between plants will also help prevent weed development and will conserve moisture.

After the first killing frost remove all dead foliage to reduce disease and prevent areas where insects can winterize. To protect perennials from the winter, cover your plants with a layer of leaves. Place evergreen branches over the leaves to prevent the leaves from blowing away, and to keep plants dry.

Perennial flower legend:

Note: Perennial availability will change regularly - check back with us often. You can request items not available and we will get them for you if possible.

| Perennials | | | | |
|------------------------------|----------------------|--------|-----------------------|--|

ExecTurf Grass Seed

ExecTurf brand grass seed uses only the top varieties of genetics with the highest ratings in turf quality & disease resistance.

| ExecTurf | Sun or Shade | Adaptation | Maintenance | Wear Tolerance | Seeding Rate | Blend | Description |
|--------------------------|--------------------------------|---|------------------------------------|----------------|--|---|---|
| Fairway 4 Blend | Full Sun | New Lawn or Interseed | Medium-High 2-3" mowing height | Very Good | New Lawn: 7 lbs per 1000 sq ft Interseeding: 3-4 lbs per 1000 sq ft | Blend of Perennial Rye grasses | Provides a lush, dark green lawn when you need it <i>fast!</i> |
| Tuff Turf Blend | Full Sun to Partial Shade | New Lawn (only interseed into Tuff Turf <i>Playmaker!</i>) | Lower-Medium 3-4" mowing height | Excellent | New Lawn: 9 lbs per 1000 sq ft Interseeding: 4-5 lbs per 1000 sq ft | Blend of tall Fescue | Provides a tough, durable lawn yet is fine-textured and dark green in color |
| Playmaker Mix | Full sun to Partial Shade | New Lawn only interseed into Tuff Turf <i>Playmaker!</i>) | Medium | Excellent | New Lawn: 8 lbs per 1000sq ft Interseeding: 4-5 lbs per 1000 sq ft | Blend of Fescue, Rye and Bluegrass | Provides a tough, durable lawn that will be the envy of the neighborhood |
| Premium Shade Mix | Moderate Shade to Moderate Sun | New Lawn (or interseed into shady areas) | Medium 2-3" mowing height | Good | New Lawn: 6 lbs per 1000 sq ft Interseeding: 2-3 lbs per 1000 sq ft | Blend of Bluegrass, Fescue, and Perennial Rye | If you have a shady lawn, this is the mix for you |
| Premium Sod Mix | Full Sun to Partial Shade | New Lawn or Interseed | Higher 1-2.5" mowing height | Very Good | New Lawn: 3-4 lbs per 1000 sq ft Interseeding: 2 lbs per 1000 sq | Bluegrass blend | When you want the "sod-look", but also the durability of a seeded lawn |

Fruits & Vegetables

| Name | Description | Maturity |
|-------------------------|--|----------|
| Artichoke | | |
| Green Globe | Large edible flower heads | 120 days |
| Asparagus | | |
| Jersey Knight | All male spears. Delicious large spears are ready earlier than other varieties | |
| Blackberry | | |
| Natchez | Thornless, very large, glossy, Early Season | |
| Ouachita | medium to large fruit, sweet, firm berries | |
| Triple Crown | Thornless, large glossy black fruits | |
| Blueberry | | |
| Blue Jay | Early-Mid, medium sized fruits, mild flavor | |
| Blue Ray | Early to mid-season, large firm fruit good for pies and jams. | |
| Blue Crop | Early to mid-season, large fruit with small scar | |
| Chandler | Mid-Late Season, large, sweet | |
| Elliott | Late season, medium light blue fruit | |
| Jersey | Late season, medium, very sweet, tall plants | |
| Legacy | Late season, medium-large, sweet, low acid fruit | |
| Patriot | Early, large sweet berries more adaptable to wet clay soil | |
| Broccoli | | |
| Green Magic | Semi dome blue green head, heat tolerant | 59 days |
| Packman | A compact, dense head with side shoots. | 56 days |
| Brussels Sprouts | | |
| Jade Cross E F-1 | Improved variety. Larger sprouts set closer together and easy to remove. | 90 days |
| Cabbage | | |
| Early Flat Dutch | Form, nearly round large heads | 75 days |
| Early Jersey Wakefield | Pointed, firm, 4 lb. heads. | 64 days |
| Flat Dutch Late | Very large, flat heads. | 100 days |
| Golden Acre | Tasty, green, round, 3lb heads, early. | 63 days |
| Ruby Perfection F1 | Round 7", deep red, 3-4 lb. heads | 80 days |
| Stonehead | Grey-green, nearly round 5" heads weighing 2-2.5lbs. Very solid. | 50 days |
| Tropic Giant | Huge 10-12lb flat head | 80 days |
| Cantaloupe | | |
| Ambrosia | Heavy net, salmon sweet flesh; 4lbs | 86 days |
| Cauliflower | | |
| Snow Crown | 8" heads weigh approximately 2lbs and are pure white. | 50 days |
| Celery | | |
| Golden Self-Branching | Compact yellow, 7" stalks. | 70 days |
| Cucumber | | |
| Homemade Pickles | Bush type plant, 5-6" fruit | 53 days |
| Marketmore 76 | Slicing type, dark green. 9" | 66 days |
| Spacemaster | Bush plant; slender dark green. 7-8" | 60 days |
| Straight Eight | 8" fruit, good slicer | 58 days |
| Tasty Green Hybrid | Burpless, slim 10" x 2" dark green fruits | 70 days |
| Eggplant | | |
| Black Beauty | Purple-black egg-shaped fruit | 80 days |
| Millionaire F1 | 12" long slender fruit, 2" in diameter | 55 days |

| | | |
|---|---|--------------|
| Elderberry | | |
| Adams | Late ripening, hardy 6" clusters, high in vitamin C | |
| Bob Gordon | July ripening, huge cluster of 1/4" berries | |
| Johns | Early ripening, large clusters of bead sized berries | Johns |
| Nova | tender, deep purple berries used in jams, jellies, pies, and wines | |
| Ranch | Late August early September, ripening, shorter for easier harvesting | |
| York | soft, dark purple berries that are good for cooking or making delicious jams, jellies and wines | |
| Figs | | |
| Chicago Hardy | Medium-sized, sweet, pink flesh, light brown to deep purple skin | |
| Garlic | | |
| Bulbs will be available in Spring and Fall | | |
| Gooseberry | | |
| Black Velvet | Grape sized dark red fruit with sweet blueberry flavor | |
| Captivator | Less thorns, res tear drop shaped fruit with sweet mild taste | |
| Hinnonmaki Red | Large, ted sweet berries | |
| Pixwell | Medium, pink-red deep purple fruit, very hardy | |
| Grapes | | |
| Concord | Seedless, Smaller than regular Concord but same flavor | |
| Concord Seeded | True grape flavor, late ripening, good for juice & jelly | |
| Himrod | White seedless, good eating quality | |
| Mars | Blue seedless, vigorous, sweet, blooms late | |
| Reliance (Red) | Seedless, very hardy, large clusters of medium sized fruit | |
| Honeydew | | |
| Earli-Dew | 2-3lb fruit with lime green flesh | 75 days |
| Horseradish | | |
| Large white roots used for condiments | | |
| Kale | | |
| Dwarf Blue Curled Scotch | Curly leaf variety. Cool weather improves taste. Harvest all fall. | 55 days |
| Kiwi Issai | | |
| Small fuzzless fruit is exceptionally sweet- self pollinating | | |
| Kohlrabi | | |
| Kossak | Produces huge (up to 8#) bulbs that don't get woody | 85 days |
| Purple Vienna | Purple skin, greenish white flesh | 55-65 days |
| White Vienna | Mild creamy white flesh | 55 days |
| Winner | Smooth, 18oz, light green bulbs | 54 days |
| Lettuce | | |
| Buttercrunch | Thick, juicy, crisp. More heat tolerant than most varieties | 55 days |
| Iceberg | Good Solid head with medium size core. Tolerant to tip burn. | 82 days |
| Romaine | Large thick leaves, 8-10" in diameter. | 70 days |
| Onion Plants | | |
| 3" Pots with approx. 25 plants- Produce big sweet tasty onions in late summer. | | |
| Candy | Yellow Globe up to 6" Stores about 3 months | 90 days |
| Superstar | White Globe up to 4" Stores about 2 months | 95 days |
| Onion – Bare Root | | |
| One bundle will plant 10' of double row with 4" spacing. | | |
| Redwing | Red globe up to 3 1/2" Stores about 8-10 months. | 100-120 days |
| Ringmaster White Spanish | White globe shaped, up to 5", stores 4 months | 105 days |

| | | |
|------------------------|--|----------|
| Walla Walla | Yellow semi-flat globe up to 6". Stores approx. 1 month | 90 days |
| Onion Sets | Plant them in early spring for green onion harvest in May; or leave them in the ground for fall harvest. Varieties available- Yellow, White, Red and Candy. | |
| Peppers | See page 43 | |
| Potatoes | | |
| Dark Red Norland | Smooth red skin and shallow eyes | |
| Goldrush Russet | Excellent for baking, boiling or frying | |
| Kennebec | Excellent large white baking potato for the Midwest. Matures mid-season | |
| Red Pontiac | Red early potato. Best for boiling or "new potatoes." | |
| Yukon Gold | Attractive, smooth, thin yellow skin, shallow eyes, yellow flesh, & uniform yields. | |
| Pumpkins | | |
| Atlantic Giant | Giant pumpkins up to over 1000lbs. | 120 days |
| Big Max | 30-100 lbs. – popular for large jack-o-lanterns; | 120 days |
| Connecticut Field | 18lb, market seller, slightly flattened globe | 120 days |
| Jack O' Lantern | Popular home garden standard, 8-10lbs | 100 days |
| Raspberries | | |
| Anne (Yellow) | Large sweet berries produced summer to fall | |
| Bristol (Black) | Medium large berry, firm with goof flavor | |
| Fall Gold | Extremely sweet golden berries summer through fall | |
| Heritage Red | Berries are large bright red and firm, good for eating right out of the patch, freezing and jams or jellies. Everbearing - produces in July and again in Sept. | |
| Jewel Black | Large, firm, glossy berries with excellent flavor, ripens early | |
| Nova | Medium-Large, sweet red berries in summer-fall | |
| Rhubarb | | |
| Crimson Red | Perfect sweet, tart combination, large red stalks, jumbo crowns | |
| Squash- Summer | | |
| Early Summer Crookneck | Mild sweet & full of flavor | 58 days |
| Sunburst | Scallop type, Deep yellow color, compact bush-type growth habit. 3" fruit. | 50 days |
| Aristocrat | Zucchini type, 7-8" dark green cylindrical fruit on compact bushy plants. | 53 days |
| Black Beauty | Zucchini type, Blackish green zucchini 6-8" fruit. Bush type plant. | 45 days |
| Gold Rush | Zucchini type, Upright, open habit. Golden yellow, superior fruit. | 52 days |
| Squash- Winter | | |
| Table Ace | Acorn type – semi-Bush habit, 4-6" fruits | 70 days |
| Spaghetti | Flesh turns to ribbons like spaghetti when cooked. | |
| Early Butternut Hybrid | Butternut type -Tan 11" fruit, high yield. | 85 days |
| Strawberries | | |
| Junebearing | | |
| Earliglow | So sweet no sugar needed, good for fresh eating, jams, and freezing. Earliest fruiting variety available | |
| Honeoye | Early, heavy yields of large consistent size fruits with firm skin and flesh that is red clear through | |

| | | |
|--------------------------------|---|-------------|
| Jewel | Late season large firm wedge-shaped fruit | |
| Everbearing/Day Neutral | | |
| Albion | Large fruit with good flavor & red throughout | |
| Seascape | Very large, hardy, heavy producing variety with firm fruit, good color, and flavor | |
| Sweet Potatoes | | |
| Beauregard | Copper skin; moderately deep orange flesh; out yields all other sweet potatoes; does not crack open; vine type. | |
| Georgia Jets | Heavy yielder; great for northern climates; rose petal skin; dark red meat; excellent baker; Vine type. | 80-90 days |
| Bunch Porto Rico | Copper Skin w/ light salmon flesh. Bush type | 90-110 days |
| Swiss Chard | | |
| Bright Lights | Flavorful, colored stems, dark green to bronze tender leaves. | 42 days |
| Tomatillo | Husk tomato 'South of the Border' flavor | 100 days |
| Tomato | See Pages 35-36 | |
| Watermelon | | |
| Crimson Sweet | Medium to Large blocky oval that grows to be 15-25lbs. | 97 days |
| Yellow Doll | Yellow crisp flesh is unusually sweet, 5 – 8 lbs. | 65 days |

| | |
|-------------------------|---|
| Strawberry Care: | <p>The biggest weed in many strawberry fields is the strawberry itself. Overcrowding of fruiting beds is a serious problem. It decreases berry size, increases disease problems, and makes picking more difficult. Plants should be no closer than 6" in any direction with 10'12" wide rows. Strawberries can be grown in most soil types; however, a good well drained loam soil will consistently produce a better crop. Select an area that will receive full sun most of the day. Avoid shaded areas and any place where water will stand after a rain as standing water can greatly increase the chances for disease. Do not grow strawberries for five or more consecutive years on the same site with some type of crop rotation. Do not plant strawberries in areas where tomatoes, potatoes, peppers or eggplant have been grown within the past 4 years. These vegetables carry the root rot fungus Verticillium, which also attacks strawberries. (Excerpt from Indiana Berry & Plant Co. catalog.)</p> |
|-------------------------|---|

Pepper Plants

Peppers absolutely demand warm weather, as they are more susceptible to cold weather damage than tomatoes. Never rush transplanting of seedlings to the garden. Be certain all danger of frost and cold weather has passed. Peppers thrive best in soils rich in organic matter, with adequate moisture. They should be grown in full sun, and caution should be exercised in the application of fertilizers containing nitrogen, as plants will tend to produce excess foliage rather than fruits.

| Name | Description | Size | Maturity |
|---------------------------|---|---------------|--------------|
| Sweet Types | | | |
| Big Bertha | TMV resistant. Very large, crisp green fruit | 7" x 4" | 72 days |
| California Wonder 300 TMR | Green to red bell | 4" x 4" | 75 days |

| Red Knight XR3 Hybrid | Big blocky bell. Perfect for stir-fry, stuffing, roasting, or grilling. Intense almost sugary flavor when left to mature red. | 4.5" x 4.5" | 66 days |
| Sweet Banana | Thick-walled fruit, pale green to yellow to red | 6" x 1.5" | 66 days |
| Hot Types | | | |
| Anaheim | Dark green to red, medium hot. | 7x2" | 77 days |
| Caribbean Red | Ultra-hot, 1" long, thin walled. Like Habanero, but red. | 1" long | 90 days |
| Carolina Reaper | Hotter than Trinidad Scorpion. Gnarly ruffled red with pointed tail. Over 1.6 million Scoville. <u>Use gloves and mask to clean seed.</u> | | 120 days |
| Cayenne Long Slim | Green to red wrinkled and thick-walled. Good for processing. | 5" x .75" | 72 days |
| Garden Salsa | Great for Mexican Salsa – very flavorful but not too hot, heavy yield. | 8-9" x 1" | 73 days |
| Ghost | Bhut Jolokia - One of the world's hottest peppers-about 1,000,000 Scoville units, ripens to red, 4" Pot | 2-3" | 100-120 days |
| Habanero | Green to golden Orange. Fiery hot 260,000 Scoville, Spicy | 1-1.5" long | 95 days |
| Hungarian Hot Wax | Tapered fruits maturing from light yellow to dark red. Spicy, fairly hot 2,000-4,000 Scoville | 5.5" x1.5" | 70 days |
| Jalapeno | Deep Green to Red, thick walled, mildly hot. 3,500-6,000 Scoville | | 75 days |
| Poblano/Ancho | Large chili type great for stuffing. Called Poblano when fresh and Ancho when dried | 5" x 2 1/2" | 75-80 days |
| Serano del Sol Hybrid | Hot but not excessively so, Dark green to red. | 3" x 1/2" | 62 days |
| Super Chili | Abundant upright fruit. Semi-compact plants produce large yields. | 2.5" | 77 days |
| Tabasco | Used to make the famous Tabasco sauce, fruits grow straight out from branches. Light green to red 30,000-50,000 Scoville | 1/2" – 1 1/2" | 120 days |
| Trinidad Scorpion | Hotter than Ghost. Wrinkled, lantern-shaped fruit ripens to red orange. 2 million Scoville. *CAUTION* Use gloves & mask to clean!! | 1.5" x 2.5" | 95 days |
| Asst. 4 packs | | | |
| Blue Tag | Golden California Wonder, Purple Beauty, Orange Bell, Red Knight | Bell Combo | 65–76 days |
| Yellow Tag | Pimento Perfection, Carmen, North Star, Sweet Banana | Sweet Mix | 60-78 days |
| White Tag | Anaheim, Cayenne Long Slim, Garden Salsa, Serano del Sol | Hot Mix | 62-120 days |
| Orange Tag | Caribbean Red, Habanero, Super Chili, Tabasco | Very Hot Mix | 75-95 days |

Tomato Plants

The “determinate” (D) or “bush” varieties are those that reach a certain plant height and then stop growing, with most fruit borne over a four- to six-week period. “Indeterminate” (I) varieties continue to grow and flower throughout the season but have less mature fruits at any one time. More recently “Indeterminate Short Internode” (ISI) varieties have been developed, which combine the controlled growth habit of a “determinate” with the unlimited production potential of an “indeterminate.”

| Name | Description | Maturity | Staked |
|-----------------------------------|---|------------|--------|
| Abe Lincoln Improved | Delicious old timey flavor with the disease resistance of a hybrid. VFNASt | 75 days | I |
| Amish Paste | Old Amish heirloom, 8oz. bright red roma style great for canning and sauces. | 74 days | I |

| Cherry | Jellybean, Sun Sugar, Supersweet 100, Yellow Pear | RED TAG |

Beat-Your Neighbor Tomatoes

We start them in January for you, and by May they are blooming with small green tomatoes already appearing. Big, stocky plants are sold in two gallon-size nursery containers. Take them home, plant them – and invite your neighbors over for a look. Needs staking.

plants bear 3-4" red flavorful and meaty fruits
68 days

Husky Red – VFFA St.; dwarf indeterminate; 5-7 oz. fruits;
68 days

Sweet 'N' Neat Scarlet & Yellow Tomatoes

Ultra-compact, dwarf variety, produces masses of sweet fruits over a long season, 1" round fruits
60 days to maturity

Tumbling Tomatoes

10" Hanging Basket

12" Hanging basket each- 1 of each color

Cascades 20" or more, juicy 1-2" fruits perfect for snacking and salads, red and yellow varieties. 70 days I

Disease Codes

V – Verticillium Wilt

F – Fusarium Wilt

FF – Fusarium, Races 1&2)

FFF – Fusarium, Races 1,2 & 3)

N – Nematodes

T – Tobacco Mosaic Virus

A – Alternaria Stem Canker

St – Stemphylium Gray Leaf Spot

TSWV – Tomato spotted Wilt Virus

BS – Bacterial Speck

EB – Early Blight

LB – Late Blight

YLCV – Yellow Leaf Curl Virus

Tomato Transplanting & Culture Tips

When transplanting hardened-off tomato plants to the garden, choose a cloudy, wind-free day, if possible, or plant in the late afternoon. Water plants thoroughly about one-half hour prior to planting, using a full-strength solution of water-soluble fertilizer. Plants should be set in deeper than they originally were in the containers. Since tomato plants root freely from any portion of the stems buried beneath the soil, they may be planted down to the first leaves. Even if some of your plants have become leggy, dig out furrows and lay in the plants, burying excessively tall stems. Partially fill the hole with soil to within about 3" of the surface and water in thoroughly, being careful to settle soil around roots, eliminating air pockets. Finish filling the hole with soil and firm soil around stem.

Keeping plants well-watered during the growing season, particularly during periods of drought, will help ensure better yields and help control problems such as blossom end-rot. Blossom end-rot is a blackening of the fruit on the blossom end due to a calcium deficiency often related to water uptake. Proper soil testing, lime applications and foliar treatment with calcium solutions like our "Yield Booster" will also help avoid this problem.

BULK GARDEN SEEDS

| Beans | Corn | Lettuce |
|----------------------------|-------------------------------|-------------------------|
| Blue Lake 156 | Ambrosia (bi-color) | Black Seeded Simpson |
| Contender | Awesome (bi-color) | Buttercrunch |

Fruit Trees

(P)- Requires Pollinator (S)- Self Fertile

| | | |
|------------------------------------|--|---|
| Apple | | |
| Gala | Early season, heavy Red striping on Gold skin, crisp dense flesh | P |
| Granny Smith | Tart, Crisp flesh, green skin | S |
| Honeycrisp | Early-Mid Season, Smears of Red over Yellow, Very Crisp Flesh | P |
| Red Delicious | Deep red skin; juicy white flesh is firm and crisp. Ripens late Sept-Mid October | P |
| Transparent | Greenish-Yellow with thin skin ripens early best for applesauce & desserts | P |
| Yellow Delicious | Large yellow fruit w/ sweet, crisp flavor. Good Pollinator for other varieties | S |
| Apricot | | |
| Sungold | Fruit is gold w/ orange blush, good for canning & drying | P |
| Cherry | | |
| Bing | Dark Red sweet cherry, fresh eating and pies | P |
| Black Tartarian | Purplish-Black sweet cherry fresh eating and juice | P |
| Montmorency | Red tart cherry, used for pies and jams | S |
| North Star | Dark red tart cherry, naturally dwarf tree good for small spaces | S |
| Rainier | Yellow w/ red blush sweet cherry, fresh eating, pies and jams | P |
| Stella | Dark red sweet cherry fresh eating and baking | S |
| Nectarine | | |
| Flavortop | Freestone red-orange skin yellow flesh | S |
| Peach | | |
| Contender | Freestone red skin, yellow flesh and very hardy | S |
| Elberta | Freestone red blushed yellow skin, large | S |
| Red Haven | Freestone mostly red skin, medium to large | S |
| Reliance | Freestone medium to large sweet fruit | S |
| Pear | | |
| Bartlett | Mid-late season golden-yellow fruit blushed with brownish-red. | P |
| Moonglow | Mid-season dull yellow fruit with pink blush. Good pollinator. | P |
| Summercrisp | Small crisp fruit good for fresh eating. Very cold hardy | P |
| Persimmon Native (American) | Rich nutty flavor when fully ripe | P |
| Plum | | |
| Santa Rosa | Reddish – Purple skin, red flesh | S |
| Stanley | Dark blue skin w/ greenish-yellow flesh | S |
| Plumcot | | |
| Paw Paw | Cross between plum & apricot, red/black skin golden-red flesh | P |
